PURIFICATION TREATMENT

🕒 90 Mins.

PHP 5,600++

Yin Yang Body Polish

The depletion of minerals from the soil is a major culprit of why the body process slows down. Minerals act as the spark to power the processes such as, metabolism (good for those with weight problems) and cell damage repair (anti -aging). Sea salt is a source that is high in minerals. In ancient healing traditions, salt solutions have been known to absorb “negative energy” (highly recommended for stressed-out individuals).

The Purification Treatment is applied to the body using special strokes to energetically balance the body. This is what we call the Yin Yang rhythmical movements: uniquely developed, perfected and can only be found at The Farm.
